

## SEASON'S GREETINGS FROM COMPOSITE MOULDINGS LTD

### IT'S BEEN AN INTERESTING YEAR....

Like many other companies, it's been an interesting year, for Composite Mouldings Ltd.

*"Everybody agrees that a few cutbacks now are worth safeguarding the company in the future"*

Winter 2008 and the beginning of this year were tough, but as 2009 has progressed, work has picked up and looking at 2010, CML are feeling confident, that it can only get better.

Ofcourse the recession hasn't been great, and it has not come without a few sacrifices, but overall, CML has been able to maintain its workforce, and everybody agrees, that a few cutbacks now, are worth the peace of mind of safeguarding the company in the future.

### REFLECTING...

When I look back at 2009, and start to plan where the company is going in 2010, I'm glad to see that I can include some past clients, and also companies, that CML has worked with together on projects, that are now potential clients!

CML recently entered into its sixth year of trading, and it's true what they say, things just start to come slightly together. It might be all the blood, sweat and tears the company has

*A Christmas message from  
Warwick Buckley MD of CML.*

had to go through, but all of a sudden the experience is there to draw on, and we feel that we are able to offer the right service to help clients better in what they need from the company.

### KEEPING IT SHORT AND SWEET...

CML will once again be closing the factory at midday on the 24<sup>th</sup> of this month and we will be open again on the 4<sup>th</sup> of January 2010.

This year we will not be sending out wine or Christmas cards and have given the money usually spent on this, to the Salvation Army, to help buy Christmas presents and food for families in the UK, who could not otherwise afford these things at this time of year.

From Everybody at CML we wish you a very Merry Christmas and look forward to working with you in the New Year.
